Col. Armstrong Reviews Recent American Campaign.

CONSERVATIVES VS. RADICALS

Sugar May Figure in Annexation.

importers and Commission Campaign Here Can Open None Merchants. Too Soon-McKinley is Bounty Advocate

> Mr. Editor:-It will be many years fully comprehend the meaning of the course of public affairs in this country during the last six months. The many cross currents arising out of hidden springs were novel and unexpected, and it is surprising how so many of them finally swung around and blended in the great current of conservatism at the last moment. The movements and exchange of thought were remarkably rapid, even in these days of rapid mails and telegraphs. A nation never thought so quickly before. We are so accustomed to pleasant voyages in our Ship of State, since the great civil war, that we were dazed at first when the cry went out that the Ship was within the outer line of breakers, and the Populist winds howling: "Down with the Supreme Court." "Free coin age and money for all," and "Let the mob rule in strikes," were driving her fast on. The financial question is abstruce, and educated men do not agree about it. How could a mass of farmers and workingmen understand it? One man's opinion is as good as anothers. One man's assertion is as good as anothers. The people wanted facts. Japan,

China, Mexico and the South American republics furnished them. It was a clever move to send working men to Mexico, who reported that they paid 60 cents per pound for coffee, and 20 cents a pound for meat, and that wages were not in proportion.

The Republican campaign was managed with rare skill. The "sure" States were not approached. In the doubtful States the most expensive method of canvassing was adopted, that of house to house visitation, and the spread of literature—250,000,000 of documents were sent out. Indiana, which has the reputation of being the most corrupt State, was carefully "attended to." The Bryan men were closely watched and met at every turn. It was war to the The Democratic contributions knife. to the Republican campaign was enortidal wave. When no symptoms appeared of its rising, it was too late to resort to the usual agencies. Bryan's speech-making was a mistake his friends now say. He is an honest man and very eloquent, but his speeches roused up the leaders of the Republican party. He started out to educate the people in his way of thinking, and was doing so well in many ways that the other side took alarm. Had he

have worked as hard as it did. wheat, at the last moment, rather staggered the silver men. The Republican orators loudly asked them during the final week of the campaign: "Why does wheat go up if gold drives prices The answer was: "The gold down?" bugs but it up for campaign purposes. It will drop the moment the election is over." But the prices advanced after election, and thousands of really honest silver men are scratching their

heads.

One of the studies hereafter will be the division of the vast vote on the line of education. All of the States with the highest percentage of people who cannot read or write voted for Bryan. And all of the States where the percentage is the lowest voted for McKinley, with the exception of the States which produced silver. No better object lesson for the uses of schools could be given than that of the contrast of the vote of Alabama and Illi-

The small Republican majority in California is due to the fact that the people are unsettled. No country contains so many "speculators" as this. Farming brings no fortune, the fruit business is a slow affair, and men and families are stranded by the thousands up and down this long territory. In their desperation they have looked to silver for relief.

Not only the statesmen, but the political writers of England and Europe have taken an unusual interest in the in all the money centers. But there same radical difference of opinions. Friends of Democracy, in its best sense, feared disruption. Thousands of our ear. Not that there would be revoution, but that the mob might go to foolish things But this campaign called out the reserved forces, the national guard, and that, after all, holds a majority of the people, even if not a

There will soon be some interesting the police officers are sad.

developments. The old leaders of the Democratic party propose to attend to the men who kicked them out at Chicago, and have nearly wrecked the The free coinage men will have a hard time of it in the next Congress. It is quite possible that there may be little tariff legislation during the next year or two. The policy will be to preserve harmony between the men of both parties who stood together before the common peril. Much will depend upon the prosperity of the country. Whatever be the merits of the tariff question, it is certain that there has een a remarkable increase of foreign trade in manufactured goods during he last two years, and an outlet made n the products of our skilled labor. on the other hand, many of the high

tariff men believe that the McKinley tariff was too high. As Bryan has already declared that the "fight of 1900" will be commenced at once, and his associates have issued proclamations to the same effect, this will tend to the creation of a new party, which puts conservatism on one side and radicalism on the other. It is evident, also, that the Southern vote will be reconstructed. The causes which has kept the intelligent vote of the South within the Democratic party before the writers on political subjects no longer exist. The Republicans fully comprehend the meaning of the abandon coercion. The best men of the South will join the Republicans, in a large measure, especially on the tar-

iff question. McKinley's election may clear the air in another way. Prof. F. A. Walker, in his able book on bimetallism, claims that England and the Continent must settle the silver question, and will do it, if we let it alone. That is, if it is possible to use silver freely they will find a way to do it. If the gold standard is wrong, England will be the greatest sufferer.

All over the country for the last two days, the great victory is being calebrated. In many of the cities and towns of this State, even the Populists are joining in it. The Republicans and conservative Democrats are marching together, and the silver men say: "After all, McKinley may do something for us." The press of the defeated party is coming out true to the Anglo-Saxon instinct, and it is saying everywhere: "We are beaten, and we submit." Just how little Hawaii will got her "pull" out of the victory, remains to be seen.

Republicans are friendly The enough, but McKinley is a sugar bounty advocate, and there is about to be a sugar beet boom in this and other States. Capital is rapidly being invested in it. The sugar consumption of the Pacific Coast is about 60,000 tons per year, and this State already produces 20,000 tons. Annexation should take place before this interest becomes hostile to it. W. N. ARMSTRONG.

San Francisco, Nov. 9th, 1896.

LANZ-WIDEMANN.

Brilliant Wedding Ceremony on Wednesday.

It was at 2 o'clock yesterday after-Gertrude Widemann, daughter of Judge a. A. Widemann, were united in mai riage by Rt Rev. Father Leonor at ents on Punahou street. The day was a delightful one, and the ceremony performed in the back part of the drawing room, before a mass of ferns and palms, set in the large bay window, was a most happy event.

Acting as best man was Mr. C. Bosse. with Miss Helen Parker as maid of honor: Miss Anna Widemann, with kept quiet, the other side would not Mr. Harry Whitney, and Miss Helen Macfarlane, with Mr. Carl Widemann, The opportune rise in the price of made up the remainder of the bridal

The bride was attired in a beautiful pearl satin gown, trimmed with chiffon and decorated with orange blossoms. She carried a bouquet of white chrysanthemums and maiden hair.

After the reception Mr. and Mrs Lanz repaired to the Waikiki home of the bride's parents, where a dinner to later, and where the newly married couple will spend their honeymoon.

Among the first to congratulate Mr. and Mrs. Lanz was ex-Queen Liliuo-

University Club Banquet

At a meeting of the University Association Executive Committee, held Thursday afternoon, it was decided to hold the first annual banquet Thursday, December 17th. Several new members have been admitted, and it is reported there are more to follow. The literary event of the evening will be a discussion of the merits of scientific vs. classical colleges. The younger members are supposed to be ready to sing the old college songs, and with toasts and reminiscences of college experiences. It is anticipated that the gathering will be a most happy one

SAN FRANCISCO, CAL., Nov 4th -A telegram from Seattle announcing the death of Capt. Thomas P. Warren. received in this city yesterday, caused election. Free coinage meant mischief | more general sorrow among those interested in the whaling industry than were the long-standing predictions of any of the news that has come from men like De Tocqueville that the great the Arctic this season. Warren was a Republic might not hold together, in boat header on the whaling steamer Belvedere, and was killed by the flying timbers of his boat, which was smashed by a whale that turned upon it when wn intelligent people had the same struck. The Belvedere left Uonalaska October 25th with 12 whales. Capt Warren's body is being brought home the front. It might do all sorts of in her. Warren was very well known in this port. He was a man about 42 years of age, and has a wife and young son living at Long Island, N. Y

Annexation Work Right Soon.

W. R. CASTLE SOUNDS THE CALL

Why Some Oppose Political Union.

Easy to Cut Coupons and Let Hawall Go to the Dogs-Contract Labor.

Mr. Editor:-Now that the question of who is to be the next President of the United States is settled, and the President is to be William McKinley, a Republican, a friend of Hawali, who is elected on a platform which affirmatively declares in favor of a policy towards Hawaii, which we may well interpret means annexation, in view of the past it behooves us in this little country to bestir ourselves again.

It is true that less than four years have elapsed since the Commissioners went to Washington to ask for admission to the American Union: and Texas had to wait much longer than that before she secured the great boon; but this makes it all the more important that we bestir ourselves, and that right soon, and with wisdom. What the Government intends to do in the matter, the public does not necessarily need know, but that its action will be earnest and strenuously in favor of annexation we all know, because it was placed in power in 1893, and has since continued to hold its place upon the express and distinct basis of annexation to the United States; and the Legislature has more than once reaffirmed this doctrine. But there is no reason why the citizens should not ake some steps to reaffirm in the most emphatic manner the doctrine on which the revolution of 1893 was accomplished, and for which we still live and hope. The Annexation Club might very properly take action.

while to notice some of the remarks which are being made on the street noon when William Lanz and Miss and elsewhere by some men of promi-Gertrude Widemann, daughter of Judge nence and sound business sense against quarantine office. Thus all former exannexation. Some of these remarks I the beautiful home of the bride's par- have heard myself, others have been

The Bulletin pats Mr Paul Isenberg on the back ostensibly on the ridiculous ground assumed by the Bulletin in his elegant home, gets his letters from Hawali, and accounts that counthe size of his dividends. It when reciprocity treatles with sugar is cery interesting.

countries virtually took away the benefits of the Hawaiian Treaty, and when the bonus paid to sugar planters in the United States threatened to take away the demand for our crop. Do they consider if Hawaii indicates that it no longer desires annexation, the very next step probably would be the abrogation of the Reciprocity Treaty, with a suggestion that Hawaii continue to care of itself.

I might add much to this of the other advantages to Hawaii of annexation, but have already trespassed upon your space, and will leave unsaid the many things which might properly be urged about the relief from anxiety regarding the changes in the tariff laws of the United States, duties on what we export there, such as canned pineapples, etc., and the fact that if Hawaii is a part of the United States, any bonuses to be paid under McKinley's next law to sugar growers will apply to all of its citizens, wherever they are. W. R. CASTLE.

Honolulu, Nov. 19th, 1896.

So Says Editor Heintz of Plants From Hawaii.

Talks About His Visit-Good Time and Good Time-More Later.

The Rural Californian for October writes as follows of the trip of its editor, C. M. Heintz, to this country:

Just as the last forms of our October number are passing through the press our Mr. C. M. Heintz returned from his trip to the Islands, and hence extended notice of its results is deferred for publication in the Rural Californian for November, when we shall give an illustrated descriptive article. Mr Heintz's mission was to introduce hydrocyanic acid gas fumigation for the destruction of the injurious insects infesting the orchards, gardens, and plantations on the Islands, in which he was successful. The Hon. Joseph Marsden, the Commissioner of Agriculture, being favorably impressed with its effectiveness, is going to fumigate all the plants, ferns, palms, shrubs, etc., which leave the Islands for the United States. This will be most sat-But just here it seems to me worth isfactory to the quarantine office in San Francisco; and if Mr. Marsden will attach his certificate of fumigation on all plants and trees shipped to this isting difficulties will thereby be re moved.

Mr. Heintz left San Francisco on September 17th, arriving in Honolulu on the 23d of that month. His reception and treatment on the part of the offi cials of the Hawaiian Department of Agriculture, horticulturists, planters, that we have no need of a cable, be- and the press was all that could be decause we cannot learn anything about sired, every courtesy and attention besugar, which same ground would, of ing extended to facilitate demonstracourse, make it unnecessary to have closs as to the effectiveness of hydrocables between the United States and of eradicating and suppressing injur-Europe as the farmers would not learn jous scale insects infecting the plananything about the cultivation of tations and orchards on the Islands, wheat; but the real ground of the Bul- and especially the economic and ornamental tropical plants, such as ferns, letin's praise is because Mr Isenberg shrubs, palms, etc., large numbers of is opposed to annexation He has been which are imported into the United very outspoken and earnest in his op- States Mr. Heintz feels under special position; and as be represents the obligations to the Hon. REPUBLICANS TO KEEP PROMISES

Extra Session None Too Soon for Action.

opening Their Conference in London.

British Pacific Cable Advocates Re-

WASHINGTON, Nov. 6 .- The Republican platform adopted in St. Louis declares in references to Hawaii:

"The Hawaiian islands should be controlled by the United States, and no foreign power should be permitted to interfere with them."

That declaration, indorsed as it was by a great majortly of the American people on Tuesday last, is the basis of hope of Hawalians. The news of the election will reach Honolulu about next Wednesday, and within ten days from that date a delegation is expected to arrive in San Francisco to represent the claims of the newest republic for recognition by this Government. It is the general understanding here that the Hawailan authorities have prepared a statement of the desire of their people for annexation which will be presented to Major McKinley without delay. The representatives of the Hawaiians here believe that the President-elect will give them his cordial support in his inaugural message, and the general belief is that they will not be disap-

The inevitable extra session of Congress next spring will have an opportunity to pass upon this matter, and already plans are being prepared to carry out the Republican platform, so far as it concerns Hawaii.

The same platform declares in reference to Cuba:

"We believe that the Government of he United States should actively use its influences and good offices to restore peace and give independence to the island."

Members of the Cuban "Legation" now in the city say their compatriots look upon this declaration as a certain indication that, not only the beiligerency of the insurgents, but the independence of the island will be recognized by the in-coming Administration, and that the chances are that President Cleveland may now take his longdelayed step and extend to the Cubans the moral support which they insist Congress intended the President should have extended to them last winter. In any event, these two questions are likely to become important factors in the deliberations of Congress early in 1897. if the present Administration fails to take cognizance of them before the

PACIFIC CABLE MATERS. conference Resumes his sessions at colonial Office.

ith of next March.

LONDON, Nov. 9th - The Pacific Ca. bie Conference resumed its sessions at noon today in the room of the Earl of Selborne, Parliamentary Under Secretary for the Colonies, at the Colonial Office. The Earl of Selborne presided and W. Hepworth Mercer acted as secretary. All the delegates were present

Secretary Mercer said to a represenlative of the Associated Press. "The conferences will now get down to work in earnest. At the June meeting it was found difficult to arrange for immediate subsequent sittings, owing to the Australian delegates being obliged to go to Budapest to attend the Farmers' Congress.

"At the July session a change of Government having taken place in Canada. the Canadian delegates felt some delicacy about going ahead until the attitude of the new Canadian Ministry had been ascertained. This necessitated an adjournment until autumn. These two meetings were little more han formal Still matters were gone into and considerable ground cleared. It is not, however permitted me to say just what took place as the Government cannot, of course, make any public statement until the conference is over and results arrived at are communicated to the governments of the colonies interested."

HOBART CONGRATULATED.

What the Vice-President-Elect Says of the Result.

NEW YORK, Nov. 5.- Garret A. Hobart has received hundreds of congratulatory telegrams.

"This is purely a victory of the honest voters," said Mr. Hobart. It is a demand for the continuance of a sound money policy. The Democrats who contributed to the result are entitled to sound recognition for their services to the people. It would not be proper for me to discuss what will be the policy of the administration. It is the duty of the Government to protect and encourage in all practicable ways the development of American industries, the elevation of home labor and the enlargement of the prosperity generally of the people. I favor a tariff bill that will furnish not only an adequate revenue for the expenses of the Government, but one that promotes American labor."

M'KINLEY'S POLICY.

Chairman Hanna Says He Will Re ward Gold Democ. ats.

NEW YORK, No. 8.—The World this morning says: Mark Hanna gave the World the following outline of what he understands to be President-elect McKinley's general policy:

"I have had but comparatively brief conversations with Major McKinley since his election. Next week I expect to meet him at Cleveland, and as he has had time to think over matters, I presume he will have more details the officers and employees of the navy than I am at present aware of. But this much I know, that he feels he owes much to the patriotic Democrat. who prefer principle to strict party ties. Indiana, for instance, was unquestionably carried against fusion by The fact that there is more work now Democratic votes. cure international bimetallism, and the rinks from the State of Oregon. One Smith & Co., agents for the Hawalian contest will hereafter be made between of the Senators from that State, Mr Islands.

the gold-standard supporters and the McBride, voted with the sound-money organized hosts of bimetallism. I men during the last Congress, and his think that four years from now people colleague, Mr. Mitchell, voted with the will be sufficiently educated to understand the danger of the gold standard, and the party that stands for bimetal-however, and as a candidate for relism in 1900 by the United States alone election was led to ally himself with will be successful. There is no reason the victorious sound-money forces in why we should be discouraged. Our Oregon, so that it is but reasonable candidate was all we could desire and to suspect that if re-elected he will be performed his part to perfection. We a sound-money Senator. The Senators must not look backward, but forward from Wyoming, Messrs. Warren and The silver forces have a magnificent Clark, may also feel it incumbent upon them to join the sound-money forces.

A strictly political table gives the sound-money forces apparently a total of 43 votes, leaving them in a minority of 3-the full membership of the Senate being 90-or 2 less than enough to enable them to tie the Senate and give Vice President Hobart an opportunity to cast the deciding vote. It is only fair to assume, however, that from among the votes of Messrs. Mills and Chilton of Texas, Gorman of Maryland and Faulkner of West Virginia, who have, previous to the recent political campaign, allied them; selves with sound money in the Senate, a sufficient number will be secured to change the apparent minority of sound-money men into a good working majority.

It is more than likely, moreover, that the Senator to be elected in Cali-fornia (and Mr. Perkins will probably succeed himself), will act with the sound-money men in view of the fact that California was won by the Republicans on the financial issue, and that Senators Warren and Clark of Wyoming may, for the same reason, be led to act with their sound-money colleagues. With this qualification, the Senate, after March 4, 1895, will stand divided politically as follows: Republicans, 50; Democrats, 34; Populists, 6.

As to the House of Representatives, there is no question. The House will stand as follows: Republicans, 211; Democrats, 127; Populists, 19.

CIRCULATION OF GOLD,

New York Banks May Soon Resume Specie Payments

NEW YORK, Nov. 9th.-Banks are contemplating the resumption of specie payments, which they suspended in February, 1892, by refusing to supply gold for export and for the payment of Government dues. That action threw the burden of supplying gold upon the Treasury, and eventually forced the issue of bonds by the Government, which aroused so much complaint.

Since the election gold has been coming into the banks in such a flood that they see their way clear to what can be termed the resumption of specie payments. By this action of the banks gold will be put into circulation and no reason whatever will exist for hoarding They will also resume the task of supplying gold for export and thus re-

PLEASED WITH HILBORN. Navy Yard Men Happy Over His Election.

lieve the Treasury of a great strain.

VALLEJO, Nov. 6 .- Owing to the general desire of the 1,300 workmen of the Mare Island navy yard to vote, work on the ships was practically suspended on election day. The re-elec-tion of Congressman Hillborn is a source of gratification to almost all yard, where, irrespective of party preferences, it is thoroughly appreciated that he has done more than anyone else in recent years to secure appropriations favorable to this navy yard in progress than at all the other yards in the country is largely due put in the very best marketable conto the efforts of Mr. Hilborn.

SENATOR CHANDLER WRITES. He Declares Tuesday's Verdict Was Not Decisive.

CONCORD, N. H., Nov. 4.-Senator Chandler says editorially in this evened with some of the most influential ing's Monitor: The people have no of the old Democratic leaders, and I more decided for gold monometallism am glad to say that they are in accord as a monetary system than for a sin-with Major McKinley's hopes. gle silver standard. They have said "The first movement he will make that they would not adopt the latter will be to obtain sufficient revenue to now at a cost of national honor. They conduct the Government. Further is have equally declared that they will sues of bonds would be altogether too not continue the existing gold standdangerous. Business prosperity and ard, but will return to true bimetallism stability demand that as soon as pos- as soon as they can do so while preserving the national honor.

Bryan Refused the Job.

OMAHA, NEB., Nov. 6th.-Mr. Bryan today sent the following reply to a telegram from Siegel, Cooper & Co. of New York, offering him \$25,000 a year to attend to the law business of the firm: "During the next four years I expect to devote as much time as possible to the advocacy of bimetallism, and therefore cannot consider the proposition made by you. I apprecijority in this city has been overcome ing failed to convince the country that ate the confidence which your offer important that the confidence which your offer important the confidence w

Cleveland Didn't Vote.

WASHINGTON, D. C., Nov. 3d.—An inusual proportion of Government officials in the higher offices remained in Washington and did not vote. This list includes President Cleveland and Private Secretary Thurber, who were at the White House most of the day; Secretaries Olney and Carlisle, who lost his vote by a technicality of the law.

The three-year-old boy of J. A. Johnson, of Lynn Center, Ill., is subject to attacks of croup. Mr. Johnson says he is satisfied that the timely use of Champatent medicines for throat and lung ground that it a better standard than Senators includes Gormin of Mary over for its cures of croup. Mr. John-himetallism land Faulkner of West Virginia and son says this is the best selling cough medicine they handle, and that it gives

Hanford handed down a decision in the

from the last of August until the first of November \$78,000,000 in gold was imported into the United States, and this money was hoarded. Then, again, a great many people who carried large balances and small ones withdrew their gold from the bank and locked it up in safe deposit vaults, holding it there until after the election. Today that money is ready for investment,

other trying to find something to put it into. One banker I talked with liked our loan, and would have invested in it, but he explained that they had a deal involving \$2,000,000, which must receive their attention first. I have no doubt that within 12 months the loan can be negotiated by the Government and without the necessity of sending an agent over there. "I will say this much: The encour-

agement I had in New York was from representatives of the English bankers, and they were opposed to taking it at the price fixed, solely because they consider the Hawaiian securities in the light of the United States, and were consequently relatively affected by the election. As an investment I consider

ation, Mr. Jones said:

an Hawalian 4 per cent bond just as good as one issued by the United States, but for speculation, of course, they are different. I think I convinced the bankers there of the stability of our Government, and I have assurances from two of the leading men there that during next summer they will visit the Islands and learn by personal observation the character of the

men at the head here, and let them see how much they have at stake."

Replying to the question as to what

"From what I could learn from gen-

tlemen who have more or less to do

with affairs in Washington, the cause

bearing the election of McKinley would have on Hawali's prospects for annex-

of Hawaii will receive the attention of Congress soon after the opening of the first regular session. Maj. McKinley pledged himself for annexation, and with a Republican House and Senate the road to political union with the United States should be an easy one." In speaking of the refusal of the Government to grant the franchise for the cable, Mr. Jones said he thought a mistake had been made. He had met Col. Spalding's rival, Mr. Scrimger,

W. R. FARRINGTON, EDITOR. NOVEMBER 20, 1896

A SWELPING VICTORY

The later and complete election returns brought from the States by the Australia are most decidedly of the character to indoise the view that the "great American people" have not gone dait, that notwith standing the intense feeling displayed throughout the hardest contested campaign in the history of the country, good sober judgment ruled, and the magnineent majori ties given McKinley and Hobart gives a clear outline of the strength of that ruling power.

The election is best characterized as a Republican sweep. In the great doubtful territory, the Middle West, where both parties con centrated their supreme efforts, immense and almost unexpected majorities were rolled up for the party of sound money and protection. In Illinois, which State the Republicans were almost ready to conced: to their opponents, the Altgeld ma chine was literally buried. The Legislature is solidly Republican, which insures a Republican Senator. In New York State and New York City, where the power of the Tammany braves was held in wholesome fear, the sound money party swept everything and insure l the displacement of David B. Hill in the United States Senate. Kentucky, though carried by a very small margin, was drawn from its place with the solid South, and it is probably destined to remain resentatives of the American peo without that fold for years to come. ple and the broad minded citizens The vote of the farmers and the of Hawaii settle down to an earmechanics, in which the Bryan nest consideration of the situation. forces placed so much confidence, The officer of the Government are was given to the party which stood bound by their own convictions for the maintenance of national and the provisions of the constitu-

One of the most gratifying features of the election was the positiveness of popular expression, which ought to put to rest the idle talk of internal strife. But these men are not above conviction and reformation, and we may hope to see the day when they will view the situation in its broader and more civilized light. Meanwhile the large number of annexationists—there are plenty of sugar planters among them, too-should put their shoul-United States that they are intensely in earnest in their endeavor to work out what is the only salvation of Hawaii, and a boon to the national strength of the United States of America.

THE HAWAHAN EXPERIMENT STATION.

In a quiet way, which few people outside of those actually interested know anything about, a great work has been carried on for the advantage of our staple industry sugar. The results of the last year, work have been presented to the Trustees of the Hawaiian Sugar Planters' Association in four able papers by Dr. Maxwell, the Director of the experiment station and laboratories. These papers deal with, first, soil; second, cultivation; third, tertilization, and lastly, manufacture. Of course such exhaustive papers deal in technicalities, but it is well that the general publie should know what is being done for our great industry and how necessary it is that practical sense should go hand in hand with sci-

This country has progressed in the line of machinery as much as any part of the world. Our mills are superior to those of the Philippine Islands and many of those in Louisiana. But our knowledge of a man of scientific culture to give information upon them as a whole. Dr Maxwell and he has devoted hunself to it "con amore."

faking the subject of soils, they differ in different parts of the Island-, and not only that, but similar soils in different parts of the Islands are differently affected by special chmatic conditions. Thus a par ticular feature of the soils of the Island of Hawaii, as compared with the soils of Oahu, Maui and Kanai, is their relatively low content of lime and their enormous content of introgen. It must be plain, then, to the veriest tyro in the art of agmentione that methods of cultivation on that Island, and the use of special fertilizers, must be different m character from what is used on the other Islands Again, Hawaii depends entirely on rainfull, bong the wit Island," and the other three Islands depend largery upon elaborate systems of irrigation

common thing for managers of untations with entirely different limatic conditions and an entirely different soil, to try and copy the necessful manager. Science now omes in and says "No! The suces obtained is due to such and each a cause, but the elements for success on your lands are wanting by such means; this is what vo-

The report on soils goes into great detail, into their capacity for retaining moisture, and describesome very clever experiments that have been made to obtain data upon this subject. From these data Dr. Maxwell was able to show that the soils of the Islands vary very largely in their capacity to take up and retain water. From such dat: the deduction is clear that one uni form method of irrigation cannot be followed throughout the I-l ands. Once this was pointed out there have been plantations where it was that the poor appearance and small yield of cane was due to the excess of water, and the water having been more sparingly used, a great improvement in the crop was soon observed.

In this and in a hundred differ ent ways the experiment station does good to the Hawaiian sugar planter. Dr. Maxwell is able to generalize; the hard worked planter has no time for generalization, and only regards the particular work before him, paving little at tention to what others may be do ing. Agricultural competition is keen. The countries we contend against are paying far less wages than those we pay our laboring classes. It is only, then, by the very best methods both in manufacture and in cultivation that we can hope to hold our own.

The reports furnished by Dr. Maxwell will of course interest every sugar producer in the Isl ands, but they will be found of interest by anyone who is interested in the Islands and their progress They show that the Hawaiian planter is alive to the necessities of the times, and that he is willing to support with his purse an institution of value to himself and of value to the outer world.

It took twelve days for the Unit ed States election news to travel around the world to Hawaii by the way of London and Japan. Afree waiting all this time for the tele graph and steamers to the west of us to annihilate space, we now have no less than four steamers all from the American coast, arriving in this port within twenty-four hourof each other. The chances are that in the course of today the wharvewill be remaing over with man steamers. In the last year Hono lulu has I al an opportunity " cogitate over which is preferable one steamer once a month, or a dozen steamers, more or less, ail or the soils is yet crude, and it needed riving on the same day. ## Good Shoes Have More Sole

Than many men have, and Good Shoes get their reward - not by immortality, but by being worn by the Good People of the land.

We sell only the Good Kinds of Shoes because we have only the Good Kind of patrons. We couldn't sell the trashy makes, even if we did carry them in stock. And that fact makes it certain that whenever you come here, you are going to get the right sort of footwear, and hence our ever-increasing business.

EXCLUSIVE SHOE

said of the public spirit of Mr. Irwin in re-creeting the theater and campaign approaches. For the prewhich is so much needed. Let evthe coming season that Honolulu may become a desirable stopping place for all good companies er ronte for Australia.

The news that Governor Altgeld intends to withdraw from political life will not bring forth many salt tears from the eyes of American citizens. Next in line should come Senator Tillman, and throng, whereupon the political atmosphere in the United States pride after their own devices. would be cleared of some of its disagreeable odors. About the only good feature about the presence of these men, and others of their stamp, in politics, is the opportunity given for the voters to show that they have sense enough to place them away on the shelf marked "Failure."

that highly prized coffin was destroyed by a fire, and then came his salary for the next year would be withheld on account of his having violated some foolish Chinese custom by entering the palace where a number of the royal family had died. Since the temporary loss of his peacock feather and yel- thanksgiving the poor and ne statesman has been in hot water of the Lord. most of the time.

An evening contemporary compliments the opinions expressed by Mr. Isenberg in the meeting of business men with the Executive to discuss the cable. It was Mr. Isenberg's idea that there was no hurry about the cable, because it could not give any information concerning the cheaper production of sugar. While Mr. Isenberg is a good business man, and has made not a little money from the sugar industry of the country, his argument was somewhat on the plan of a farmer who objected to the introduction of electric lights in his town because oil lamps served him well enough, besides, electricity in lighting could not be depended upon to increase the price of potatoes. If the same principles were carried out throughout the country the people would still be living in grass houses and riding horseback over bridle paths, instead of spending money for increased home comforts and a steady development of public works always attendant upon sound progress. It is not altogether improbable that a cable would revolutionize the methods of selling sugar and enable the producers to take advantage of the upward tendencies of the markets and possibly free them from the power of the Trust. Of course, Hawaii can get along without the cable. It could get along if there were no knives and forks in the country, but the day has long since gone by when a progressive people are satisfied with the customs and disadvantages of a previous century.

Nothing but politics pervaded the counting room, social gatherings and the street in the United States previous to the election. Now it is nothing but business. The sudden change that has come over the country is one of the best evidences of the nation's great strength and the confidence in the wisdom of the Jack a very dull boy indeed, and popular will. The defeated radical element will undoubtedly continue to marshal their forces in preparation for In tormer times when a manager that Jack is going to have a pretty the struggle four years hence, but with take, although the statement that good order within and without its was successful in one place it was fair time of it. Enough cannot be the people generally it will be time

enough to think over the next Presidential possibilities when the next giving the citizens of Honolulu an they have had quite enough of politics opportunity for that relaxation easy-going routine of earning their daily bread. Like Hawaii, they stability, and having obtained it, busieryone unite in trying to so support ness will adapt itself to circumstances and continue in a healthy condition.

#### THANKSGIVING.

Proclamation Issued by the President of the United States. WASHINGTON, D. C., Nov. 4th .--

President Cleveland today issued the following Thanksgiving proclamation: The people of the United States should never be unmindful of the gratitude they owe the God of nations for His watchful care which has shielded them from dire disaster and pointed out to them the way of peace and happiness. Nor should they ever refuse to then Senator Hill might join the acknowledge with contrite hearts their proneness to turn away from God's

> To the end that these thoughts may be quickened, it is fitting that one day especially appointed we should join together in approaching the throne of grace and supplication.

teachings and to follow with sinful

Grover "Therefore, I, Grover Cleveland, President of the United States, do hereby designate and set apart Thursday, the 26th day of the present month of November, to be kept and observed as a day of thanksgiving and prayer throughout the land. On that day let every people forego their usual work and occupation, and assemble in their accustomed places of worship; let them, with one accord, render thanks Li Hung Chang seems to be to the Ruler of the Universe for our playing in hard luck of late. First preservation as a nation and our deliverance from threatened danger; for the peace that has dwelt within our boundaries; for our defense against disease and pestilence during the year an order from the Emperor that that has passed; for the plenteous rewards that have followed the labors of our husbandmen and for all the other blessings that have been vouchsafed

"And let us, through the mediation of Him who has taught us how to pray, implore the forgiveness of our sins and

a continuance of Heavenly favor. "Let us not forget on this day of by deeds of charity let our offerings of low jacket, the noted Chinese praise be more acceptable in the sight

Witness my hand and the seal of the United States which I have caused to be hereunto affixed:

By the President, "Richard Olney, Secretary of State."

Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla posse and unequalled curative power and there-

fore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to care is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Severe Case of Dyspepsia "I suffered from dyspepsia 20 years. I

had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." Mrs. EMILY F. BUMP, 45 Portland Street, Middleboro, Mass.

### SO SAYS THE BOARD OF EDUCATION

Are Differences Between reconsidering the whole matter and accepting Mr. Dumas' proposition. Heads of Schools.

J. F. Scott Will Choose the Pupils to Attend-Mr. Dumas' Proposition Accepted.

At a meeting of the Board of Education, held yesterday afternoon, there were present President W. O. Smith, Mrs. B. F. Dillingham, Mrs. E. W. Jordan, J. F. Scott, Prof. Alexander, W. A. Bowen, and later, Mr. Dumas of the Normal School.

E. Farmer was granted a certificate to teach. The matter of a life certifieate was deferred until the return of H. S. Townsend.

Action on a petition from Kona, asking that a school be erected in Kiholo, was deferred until the return of H. S. Townsend.

It was recommended by the Board that the application of Mr. Osorio of North Kohala to be an agent to grant marraige licenses, be recommended.

The resignation of Miss Grace F. Porter of Hilo was read and accepted. The application of Miss Hardwick for

a position in the public schools was read and filed.

Five applications for positions as teachers were read and filed. Among these was the application of C. D. Pringle of Hanapepe to be re-employed. 360 Japanese and 40 Chinese from this There was a long discussion on the port. matter, and it was finally deferred to

the next meeting. The Practice School matter came up again for discussion, and Mr. Dumas appeared to state what had been done.

Mr. Scott-The matter was left with ad of today, ask you to give your horse Rev. Alex. Mackintosh to furnish 50 pu- a treat. Read the ad. It will interpils from the Royal School to make up two grades. Mr. Mackintosh concluded there was only one way to help his own school, and that was by taking the boys out of one grade. He accordingly sent 50 over to Mr. Dumas, who refused to accept about half of the number. Mrs. Derby and Mrs. Wood, who are teachers for the Practice School, expressed themselves as being very well suited with the 50 boys.

Mr. Dumas-Mr. Mackintosh sent me all lowest grade boys. The matter of higher grade was left in abeyance. He refused to discuss any of those he sent, and said that the Practice School was still a part of the Royal School. position of her remains.

Mr. Scott-I went to Mr. Mackintosh on the day after last week's meeting and told him to get the boys ready tension put on to the room space on as soon as possible. He said that he deck. This is nothing more than a would like a week. On Monday be neat 12x12 smoking and card room went through the school to see what astern, which will contain a neat licould be done. Accurate Figures From All Over the World-Result of Election Means Prosperity.

SAN FRANCISCO, Nov. 9th.-Sugar There has been no change in the prices of refined in the local market, and the Western Sugar Refining Company quote as follows: Cube, crushed and fine crushed, 5 sc, powdered, 5%c; dry granulated, 4%c; confectioners A, 4%c; magnolia A, 4%c; extra C,

been in school but three months, and 4c; golden C, 4%c. These prices are subject to usual rewho can neither read nor write, be in bate of %c per pound at the end of the second grade, Mr. Mackintosh each quarter. Price for export has dewanted me to take all the boys in that dined 4c per pound, and we quote in bond on basis of 4c net cash for gran-Continuing, after brief discussion, Mr. Dumas suggested that it might be ulated.

Owing to the large and continued demand for beet granulated of the Alameda Sugar Company (at 1/3c per pound granulated), which has kept their stock sold up very closely, this factory has for the present advanced price to the same basis as refinery quotations tainly confident and aggressive. for granulated.

Chino Beet Factory closed its season on the 25th ult., crop being less than was anticipated, and only amounting to about 46,000 tons of beets. The campaign has not been as prosperous in that section as before, as the season has been too dry. Under the circumstances, it is considered that the crop has done well. Work has been commenced on the new beet factory at Alamitos, California, and the foundation is now well along. The Wat-sonville and Alvarado factories are still working full capacity, and the beets, in these sections are turning out well. The production of sugar at both factories will be very large, and the campaign successful, if nothing unforeseen occurs during the next few weeks The Alameda factory will not finish work until January.

Now that our election has passed and resulted in the success of the candidates of the Republican party, which probably insures a further protection to the sugar interests in this country. the Spreckels new factory will no doubt be rapidly pushed to completion, and there are two or three other factories projected.

Basis-Continued at 2%c net until October 26th, when it advanced to 2% net; 28th, to 3c net, and since that date there has been no change. Sales are reported in New York as follows: October 26th, spot 10,000 bags at 3 %c; 28th, spot, 3,400 bags; 29th, spot, Java 1,000 bags; 30th, spot, 12,000 bags; November 2d, spot, 1,000 bags—all at 34c, and since the 2d no sales have ton, f.o.b.

been reported up to date. Eastern and Foreign Markets-The fect a compromise. We have 27 boys general situation has improved since our last circular, as will be seen from the prices of centrifugals in the New quisite number to come in from other York market, as noted above, and also sources. The Royal School has been which we quote as follows:

October 20th, 9s; 21st, 9s 1½d; 23d, 9s; 24th, 9s ¾d; 26th, 9s; 28th, 9s 1½d; 29th, 9s 2¼d; 30th, 9s ¾d; 31st, 9s 1½d; November 4th, 9s 2¼d, and 7th, 9s 334d. Buyers in New York were successful in keeping prices on the basis of 3c for 96 per cent centrifugals until that Mr. Scott be authorized to obtain tactics were preventing them from obtaining the required supplies, were obliged to meet sellers' views first with an advance of 1/8c per pound, and finally ¼c per pound, and at this advance they secured immediately about 40,000 tons of all grades. The parity of the New York market has for some time ruled below other raw sugar markets, and this caused owners of cargoes arriving to put them into store, and many affoat cargoes originally intended for the United States, have been dfverted to Europe. Refined sugars were advanced in New York to 4.06 on the Read B. F. Ehlers & Co's bargain 28th ult., and to 4.18 on the 7th inst., ess usual discounts of 1 per cent.

Total stock of sugar in four ports, United States, according to Willett & Gray's latest circular of October 29th. was 317.093 tons, against 151.851 tons at same time last year. Total stock in six principal ports of Cuba by cable, same date, 41,209 tons, against 149,070 tons last year. Total stock in all the principal countries, 1,092,602 tons, against 1,098,869 tons at same time last

The bark Iolani, McClure master, will sail from New York for Honolulu on Czarnikow's latest London circular of October 22d, states that when Licht's estimation of production were issued The Hawaiian Hardware Co., in their (which we give below) the market materially declined, but a recovery to previous values shortly took place, not on any improvement in figures, but partly H. L. Shaw of the Hollister Drug on a rise in wheat, which may prove Company will leave for Hilo on the a serious competitor for spring sowings, and partly on the belief that Licht's calculations of stocks in Sep-A letter was received at the Foreign tember next may prove as much above Office yesterday from Minister Cooper. the mark as the calculations for last September were below the mark. He was in Vancouver at the time, but These calculations are based on fairly liberal European estimates; on Russian United States Consul General Mills exports equal to last season, which are received instructions by the Australia always difficult to foretell; on a Cuban mail to forward the late Kate Field's production of 400,000 tons (which cereffects to the State Department at tainly looks large), and on the sup-Washington immediately. No instrucposition that the exhaustion of invisitions were received regarding the disble stores in raw and refined, will not materially affect statistics, thus ar-The steamer Kinau is having an ex-

runry and September will depend much on Cuba, about which little can be said and upon consumption, which apparently has been stationary last season as it has sometimes appeared before but which figure corrected itself in the following year.

It certainly seems that we can do without Cuba, provided we get liberal sowings next spring, and these will then depend quite as much on the price of sugar as of grain, which require close watching. As to crop estimates, the factories have now also issued their estimates, which during the last two years have been 500,000 tons and 400,000 tons below the yield so that Licht's figures are considered nearest the mark.

In Germany the extra weight of roots per acre (8 to 12 per cent in chief prov-Inces) more than compensates for inferior quality (0.6 to 0.9 polarization) but final yields everywhere are dependent upon autumn weather and good keeping of the roots, which will still remain the finally determining factor in all estimates. In the face of large prospective supplies, there has been no increase of business on the part of trade, and the cautious policy adopted in Europe and in America, seems as yet not unwarranted. We give latest estimates of new beet crop under date of October 22d, as follows:

1896-1897, Licht, 4,960,000 tons; Gleseker, 4,645,00 tons. The yield in 1895-96 was 4,323,899 tons; 1894-95, 4,792,550 tons. Licht's estimate of the cane erop for 1896-97 is 2,655,000 tons. In 1895-96, the crop was 2,704,447 tons; 1894-95, 2,850,615 tons.

Our latest mail advices from New York of Nov. 4, state that the market for the few days past has been more or less restricted, on account of the election with a very strong undertone, and with buyers of centrifugals and no sellers at last quotations of 34c for 96 test; and for Muscovados 2%c for below price of the Western Refinery 89 test. It now depends upon the European markets for a day or two, whether next sales will be at a higher range. The tone of the market is cer-

A THANKSGIVING DINNER.

A Bill of Fare That Would Tempt an Epicure.

Mrs. Gesine Lemcke, who is lecturing on culinary matters at the Food Show in Grand Central Palace, told how to cook a Thanksgiving dinner, says the New York Tribune.

The menu for the dinner was as fol-

Soup a la Reine. Canape a la Minden. Bass a la Saragossa. Calves' Brains Alphonso. Orange Sherbert. Roast Turkey. Cranberry Jelly. Brussells Sprouts Sautes. Potato Souffle. Creamed Onions. Pumpkin Pie. Pineapple Mousse. Coffee. Roquefort Cheese.

The following are some of the recipes that Mrs. Lemcke gave to her audi-

Soup a la Reine.-Place a soup kettle with a well-cleaned chicken over the fire; if handy, add a small veal knuckle and sufficient cold water to cover all; as soon as it boils add a half tablespoonful of salt, two leeks, two onions and three sprigs of parsley tied together with two blades of mace; cover and boil slowly. When the chicken is tender take it out, remove the meat, chop up the bones and return them with the shin to the soup kettle, and boil a half hour longer; then strain through a sieve and a napkin, remove the fat, return the soup to the kettle and place it over the fire; melt two ounces of butter in a small saucepan, add two tablespoonfuls of flour, stir

until the flour has absorbed all the butter; add slowly one pint of the soup, stir until smooth, and add to the soup; boil 15 minutes. Mix the yolks of two eggs with a half pint of cream; season to tasfe with sait; draw the soup kettle to side of stove, add a little of the soup to the cream and yolks, mix well, and pour into the soup. Place the finely cut white chicken meat from the breast in a tureen, pour the soup over and serve Pineapple Mousse.-Line a plain

form with white paper, see that there

are no creases in the paper; lay it in

even and smooth, set the form into the

cracked ice until the following mixture is prepared. Pare and cut into stices one ripe prreapple, dissolve one pound of sugar in one pint of water and put it over the fire to boil, add the pineapple slices and boil 20 minutes, transfer them to a sieve to drain; when cold cut some of the slices into halves and lay them inside on the side of the form, cut the remaining slices of pineapple and set them cold, place a saucepan with one and a half cups of pineapple syrup and the yolk of nine eggs over the fire, stir until nearly boiling, remove from the fire, add one cup of pineapple dice, and stir till cold; then mix it with a pint of whipped cream, fill this into the form, put on the cover and paste a strip of buttered paper around its edge; then pack the form into cracked ice and salt so that it is completely buried, and let it remain four hours; when ready to serve dip the form into hot water, dry quickly, turn the mousse onto a dish and garnish with fancy cakes.

Canape a la Minden.—Stir the yolks of two hard boiled eggs fine, add one tablespoonful of lemon juice, six canned anchovies, one tablespoonful of English mustard mixed, a quarter of a spoonful of white pepper, or a little cayenne pepper, one pint of finely minced boiled ham and some finely chopped capers; mix all together. Cut 12 thin slices of bread into oblong shapes, fry them light brown in butter; when cold spread the ham mixture equally over each slice and smooth it with a knife. Put a half pound of finely cut American cheese in the blazer over the lamp, add a quarter cup of milk, stir until creamy; spread it over

### REPORT OF DOCTOR MAXWELL

Election Returns Interfere With Morning Session-Ways and Means Discussed. 530

At a meeting of the Planters' Labor and Supply Company, held in the usual place yesterday afternoon, there were present some 20 members and people interested.

The following officers nominated by the Executive Committee to serve during the ensuing year, were presented to the meeting and elected at once: J F Hackfeld, president; J. B. Atherton, vice president; P. C. Jones, treasurer. C. Bolte, secretary, and F. A. Schaefer, auditor.

J F. Hackfeld thanked the association for the honor conferred upon him

JOHN F. HACKFELD, President Hawaiian Sugar Planters' Association.

in electing him to the office of president, and gave them the assurance that he would do all in his power to give the very best of satisfaction.

The next business of the afternoon was the consideration of the following resolution:

To cover cost of analysis at the laboratory of the H. S. P. A., the vendors of all fertilizers used in these Islands by the sugar planters shall pay to the treasurer of this Association a fee of 25 cents per ton, and the planters using fertilizers bind themselves to be responsible for this payment."

P. C Jones moved for the adoption of the resolution. The matter had been brought before the Association last year, and discussed to some extent, will be about \$2,500, and the Minister but no decided action had been taken. of the Interior will be asked to allow Dr. Maxwell had given the assurance an appropriation of that amount. that the method of assessment suggested in the resolution was the same 25 cents each will be made for vac-as that carried out in all other coun-cinating passengers on vessels arriving tries.

H P Baldwin said that he had been opposed to the resolution on the previous day, but he had since that time seen it in a favorable light. Some of the fertilizing companies had already given their consent to the proposition. by means of which some \$5,000 could be raised. The trustees were about to ask for \$18,000 to defray expenses of the coming year, and \$5,000 would help

along considerably President Hackfeld stated that it was expected that an agreement would be signed by plantation managers.

The trustees asked for \$18,239.11 for the purpose of defraying the expenses

H. P Baldwin moved that the trustees be authorized to make expenditures on the above estimate Carried.

of the coming year.

The trustees further recommended that the treasurer be authorized to assess amounts not more than 10 cents per ton on the year's crop to defray expenses of last year. P C Jones' motion for adoption was

carried President Hackfeld announced that

Dr Maxwell would read reports of in-terest to planters

Dr Maxwell stated that he had in pamphlet form four reports, but as it was a matter of impossibility to read all of them he would like the members present to decide on one of the four

H P Baldwin recommended the report on "Manufacture" This was seconded but before being put to vote Manager Lowrey of Ewa plantation Or C BREWER & CO., Ltd, said 'Mr President I should prefer Agents, Honor to hear the report on 'Cultivation and Fertilization' The mills are all right" H P Baldwin You mean Ewa

mill is all right " Dr Waxwell then read his report on 'Manufacture' which can be found in a recently published pamphlet

#### A Correction.

Mr Editor - In the report of the proceedings of the Hawaiian Sugar Planters' Association published in your issue of yesterday, it is stated that I said "The plan of assisting by fertilizing had not been a success owing to the fact that a number of plantations have not been prompt in sending in samples of soil' What I actually said was 'The arrangements made last year for defraving the cost of fer tilizer analysis has not worked satis factorily owing to the fature of some plantations to submit the fertilizers used by them for arilysis 1871 112 M 4

#### The Tate Captain P in ic.

Capt G W Pearne of the steamer Garlie who died in Hong Long en-November 4th was a native of Eng. land and had been to sen since box hood having been a captain for over 1 40 years and commander of the new ;

Gaelle from her arrival here to the time of his death, being transferred from the older vessel of that name. He had two sons in England, and by his second wife, daughter of Dr Geary, well known to old San Franciscoans, he leaves a daughter Mrs Pearne left on the Belgic October 17th to meet her husband in Hong Kong The owners of the Gaelic sent Capt Pearne a letter, after the accident in the Inland Sea which caused so much damage to the Gaelic entirely exonerating him from all blame in that affair, but it is believed that the chagrin over this, the first accident during his long service, hastened his death. Both the White Star Line and the O & O S. S. Co have sustained a severe loss in the death of their trusted and faithful captain, and all who have crossed between the Occident and the Orient on the good ship Gaelic will hear with sorrow the news of her faithful commander's de-

Quarantine Matters Discussed at Length.

Arrangements for Visit to Settlement-Board Will Leave Tomorrow.

The Board of Health convened at 8 p. m. yesterday. Present: W. O. Smith, president; Messrs, C. A. Brown, T. F. Lansing, Keliipio, Reynolds and Drs. Emerson, Wood, Alvarez, Myers, Day and Monsarrat.

Supt. Meyers of the leper settlement reported on the quality of coal received and the state of the weather on Molokai. He submitted a set of rules to govern those who raised hogs at the settlement. The rules provide that hogs must be confined in enclosures, and the penalty for allowing them to run wild is a confiscation and sale at auction, one half the proceeds to go to the Board of Health and the other to the owner of the hogs. Action on this matter was postponed until after the visit of the Board to the settle-

The letter from Medical Inspector Eldridge relative to prevalence of cholera and smallpox in Japan was read, and it was resolved that in view of the prevalence of cholera in certain places in Japan and epidemic dysentery in many parts of Japan and smallpox in Kobe, a recommendation be made requiring all steerage passengers coming from Japanese ports be subject to a five days' quarantine and disinfection of effects before embarkation.

Mr Reynolds submitted a suggestion for a plan for two new wings to the Insane Asylum. The plan will furnish 32 new cells 8x9, only 6 of which are inside rooms. The estimated cost of the improvement is \$1,800. With other necessary improvements the cost of the Interior will be asked to allow

It was also decided that a charge of

Dr Brown, who has been acting as Government physician at Kealia, presented his resignation, which was accepted Dr. Hugus will be appointed in his place.

HOW TO CURE BILIOUS COLIC

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a good many people. Mrs. F. Butler, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by all druggists and dealers. # ROPIC OII

## For Engines and Cylinders

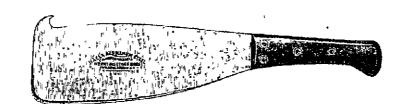

THIS IS THE OIL that Plantation Engineers are calling for.

## 19 Sugar Mills

Are using the TROPIC Engine and Cylinder Oils, and we have yet to hear of a case where it has not given perfect satisfaction.

The TROPIC is a pure, unadulterated lubricator, and is fully warranted to be of the highest possible grade and to give first-class satisfaction in every particular. It is made at one of the best Oil Refineries in Cleveland, Ohio, and is shipped direct to Honolulu without passing through the hands of any Middle-men, and we sell in original packages, barrels or cases. The great success that the TROPIC OIL has met with, during the past season, ought certainly to recommend it for use in every Sugar Mill.

We have just received ex Bark "Edward May" a fresh supply from Cleveland, and can supply immediately, or at any time specified, any quantity required.

Are being used on TWENTY-SEVEN PLANTATIONS. They are made by H. Disston & Sons of Philadelphia, and are acknowledged. by them to be the best knives they ever turned out. They are made of Aluminum Steel, with Apple-wood handles, secured with four rivets, and hang easier in the hand, when in use, than any other Cane Knives. The fact that the cane cutters prefer these knives to all others, because they do not tire their hands, and they can do much more work in a day, is sufficient guarantee of their superiority.

We have just received over a hundred dozen from the Factory, and can supply Plantations now or at any time during the coming season. Plantations that have not yet tried them, should send for a sample lot, and give them a trial. We have them with the hook and without.

## O. HALL & SON.

## The Same Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was made and sold 50 years ugo. In the laboratory it is different. There modern appliances lend speed to skill and experience. But the sarsaparilla is the same old sarsaparilla that made the record—50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound, we might....
But we're not. We're making the same old sarsaparilla
to cure the same old diseases. You can tell it's the
same old sarsaparilla because it works the same
old cures. It's the sovereign blood purifier, and
—it's Ayer's.

### CHOLERA IN JAPAN

#### Dr. Eldridge Reports to This Government.

Small Pox Prevalent in One District, Plague Raging in

Formosa

The following letter was received at the Foreign Office yesterday, and is published with a view to impressing the public in Honolulu with the importance of vaccination as a preventative to smallpox:

Chief Sanitary Inspector for Hawaii, Yokohama, Japan, Nov. 6, 1896.

Sir:-In transmitting the enclosed report of infectious diseases in Japan. I have the honor to inform you that a certain number of cases of choleraic disease have, unfortunately, occurred of late in Kobe, Tokio and Yokohama, though for some reason not included in the returns of the Home Department. I have, however, succeeded in obtaining reliable information upon this point as regards Tokio and Yokohama, as follows:
In Tokio during the month of Octo-

ber there were 133 cases, and from November 1st to November 3d, 16 cases reported to the police authorities as of cholera. So far as I can ascertain, however, the death rate is exceedingly small, far below that of true cholera, and it is at least questionable if the majority of the cases reported are genuine. The ordinary Japanese practitioner, under the stringent regula-tions as to the notification of infectious disease, is apt to err on the side of safety rather than in the other direction.

As concerns Yokohama the situation seems different. Here there were in the city and suburbs, from October 9th to November 3d, 29 cases, of which almost every one was speedily fatal. Still so far as I am able to judge from so limited a number of cases, the disease is decreasing rather than the reverse, and the authorities are doing all in their power to control it.

I beg further to call your attention to the increasing prevalence and great mortality of the smallpox in Hiogo, Ken, where the disease is confined chiefly to the towns of Hlogo and Kobe and their immediate neighborhood, on which account the United States Consul at Kobe has deemed it advisable to treat that port as in-

Your attention is also invited to the renewed and severe outbreak of plague in Formosa, which is so far confined to the district of Taipeh.

I am, Sir, very respectfully, your obedient servant, STUART ELDRIDGE, M. D., Sanitary Inspector for Hawaii. Hon. Henry E. Cooper, Minister of

STUART ELDRID	GE,	M.D.

Sanitary Inspector for Hawaii

VENEZUELA BOUNDARY. Lord Sallsbury Announces the Settle-

ment of Dispute.

sion House tonight that the dispute ed that your allment is some form of between Great Britain and the United dyspepsia, easily curable by Mother States over the Venezuelan boundary Seigel's Syrup, as demonstrated by the had virtually been settled. It has been two instances cited above.

settled on the terms which the United States insisted upon. The whole ques-tion is to be referred to unrestricted arbitration. The only condition at-tached is one proposed by Secretary Olney, that the title to bona fide settlers to their present holdings shall. in case the arbitrators' award places them under the jurisdiction of Venezuela, be decided by the laws governing private title. The British law provides, among other things, that the title to land which has been unassailed for 21 years cannot be invalidated. Venezuela, in other words, will be de-barred from confiscating property in any territory she may acquire under

ar bitration. That was the good news in the British Premier's great speech. He announced it at the outset, and it was received with immense enthusiasm. He ventured also to congratulate Embassador Bayard and the United States on the result of the election. This is an extraordinary thing for a Prime Minister and Foreign Secretary to do, but he explained that it hardly amounted to an interference in the domestic polities of another nation to express admiration of "the splendid pronouncement which the great people has made in behalf of principles which lie-at the base of all human society."

#### May Remain.

In the habeas corpus proceedings before Chief Justice Judd yesterday, a decision was rendered that Masumoto Michimoshu, the appelant, was entitled to remain in the Hawaiian Islands by virtue of his being possessed of more than the amount required by law. The evidence showed that the man had saved more than this amount while in Japan. The Attorney General accepted the verdict as one which settled the others, and the remaining Japanese were dismissed.

NEEDLESS ALARM.

Whether the suffering which people undergo from disease is more physical than mental is a point not easy to decide. It depends largely on the nature of the disease, and the make-up of the individual. Experience seem to show, however, that in one prevailing disease-indigestion or dyspepsia, the two kinds of suffering are very evenly divided, and both very great, the mental distress being chiefly due to the illusions and deceptions which attend it. For example, though dyspepsia is solely an affection of the digestive organs, it has power to set up disorders in others which always alarm the sufferer, and often perplex his medical advisers. These symptoms or sequences may relate to the head, the heart, the sight, the hearing, the lungs, or to other organs or functions. Take an illustration or two.

"In the spring of 1891," says Mr. Edward Tatham, "I fell into a low. weak state of health. I had a foul taste in the mouth, and was constantly spitting up a thick phlegm. My appe tite was poor and after eating I had fulness and pain at the chest—the latter seemed to be puffed or swollen. What made me most anxious was my breathing, which came to be so difficult and short that at times I could only catch my breath by an effort. I was led to fancy that something must all my lungs, especially as so great a quantity of mucus gathered in my throat and mouth. It was usually worse at night, and I got very little sleep on account of it; sometimes none at all. In a morning I would be quite

worn out. 'As time went on I became very weak, and was much put to it to get about. I took all kinds of medicines and got no proper relief from anything. In February, 1893, Mr. William Beardsley, grocer, Cotmanhay, told me how he had been cured of a like trouble by Mother Seigel's Curative Syrup. Acting on his advice I got a bottle of this medicine from Mr. Platt's Drug Stores, Awsworth Road, and after taking it felt quite another man. My breathing was easier, and my food agreed with me. I continued using the Syrup, and got stronger and beter every day. When I had taken four bottles I was as well as ever, being free from all pain or discomfort. My wife, who has suffered for years from liver complaint, has taken the Syrup with the same good results as in my own case. You are at liberty to make any use you like of this statement. (Signed) Edward Tatham, Tatham's Lane, Cotmanhay Road, likeston, Derbyshire, March 21st, 1895."

"In October, 1888," writes another, "I began to feel weak, heavy, and tired. My appetite was poor, and after eating I had distress at the stomach, together with shortness of breath, and a good deal of pain across the chest. Sometimes I would be taken with sudden dizziness, as though I must fall to the ground. Cold, clammy sweats used to break out all over me and I trembled from head to foot. Finally, I got so weak I could scarcely walk to my work. Indeed, I had occasionally to leave my work, I have been away as long as a month at a time. In this way I suffered for about two years.

"In August, 1890, Mr. Thompson, the grocer in Church Street, urged me to try Mother Seigel's Syrup. After tak-ing only one bottle I felt better. My food agreed with me and I was stronger. Continuing with this medicine; gradually all pain left me, and I completely recovered my health. Since then I have kept the Syrup in the house for use in time of need. You are free to publish this statement. (Signed) William Mallender, '71, Robinson's (Signed) Buildings, Newhill, Wath, near Shef-

field, October 11th, 1895. Cases of supposed disease of the heart, of the nervous system, of the kidneys, &c., constantly prove to be, not organic affections of those parts at all, but merely local or functional disturbances caused by the toxic or poisonous principles thrown into the blood by the decomposition or fer-mentation of food in the stomach; otherwise, by dyspepsia or indigestion But until they are discovered to be so they are mistakenly treated, and serious, often fatal, results, follow. Until pronounced and undeniable symptoms of organic mischief show themselves LONDON, Nov. 9th.—Lord Salisbury (which is not the case once in a hun-announced in his speech at the Man-dred times) you may take it for grant-

#### DR. J. GOLLIS BROWNE'S CHLORODYNE. Original and Only Courist. COUGHS,

Corps, ASTHMA,

Вкоменить.

Dr. J. Cellis Brewne's Chierodyea.
Vice-Chancellor SiR W. PAGE WOOD
stated publicly in court that Dr. J. COLLIS
BROWNE was undoubtedly the INVENTOR of CHLORODYNE, that the whole
story of the defendant Freeman was deliberately untrue, and he regretted to say it
had been sworn to. See The Times, July
12, 1864. 13, 1864.

Dr. J. Collis Browne's Chiorodyna is a liquid medicine which assuages PAIN of EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. Is the Great Specific for Cholora, Dysentry, Diarrhoca.

The General Board of Health, London, report that it ACTS as a CHARM, one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhæa."

Dr. J. Coills Browne's Chiorodyne is the TRUE PALLIATIVE in Neuralgia, Gout, Cancer,
Toothache, Rheumstism.

Dr. J. Collis Browne's Chlorodyne Rapidly cuts short all attacks of Bpilepsy, Spasms, Colic. Palpitation, Hystoria

### A GOOD THING.

Do you know a good thing when you see it? Some people do and some don't, but those who tumble to it are bound to get ahead in the race for wealth. We can put you onto a thing or two. Just now we want you to

Give Your Horse a Treat-

Remember he is your best friend and if you treat him well and feed him well, he will do more work and better work, besides looking as a noble equine ought to look.

"The National Feed Box" will work a complete meta-

morphosis in the condition and the appearance of your horse. It is a circular shaped vessel, made of cold rolled steel, finely galvanized, with malleable from side rod; each box furnished complete with a Japanese wrought iron holder, plate and screws. This feed box has the advantage that you can put it up anywhere in the stail or box, does not waste a particle of the feed, will always be sweet and clean, and is especially desirable where a horse is inclined to bolting, slobbering or scattering.

It saves feed bills at a rate of from 25 to 30 per cent. Saves doctor's bills by preventing indigestion, colic and Banff, Glacier, Mount Stephen stomach troubles, saves hostlers time, trouble and vexation. It pays for itself in a few weeks, and no stable is complete without it. They come in 3 sizes, capacity 6, 8 and 10 quarts, and the price is within the reach of everybody owning a horse. We would especially call the attention of managers of plantations and livery stables to this new device. It will pay you the trouble to come and inspect them.

### ANGELINE

### Enters the Arena With Sibyl on Aigrettes.

Wants to Know Why Artificial Ones Can't be Made.

MY DEAR SIBYL .- Do, if for a moment only, "lend me your ears." Why, I speak impulsively but the less seriously, why, in the name of the Goddess of Beauty, doesn't some milliner invent and furnish to our aesthetic public a substitute (and it must be a good one), for the aigrette?

Now, I'll begin at the beginning. Ouida, "Life," the editor of the Adthe wearers of algrettes as thoughtless or heartless. Perhaps ignorance, rather than thoughtlessness is the plea covering my otherwise shameless head which has for years, fashion permitting or not, been adorned by aigrettes. As a specialist in economics and philosophy rather than in orinthology, I confess, my knowledge of the feathered tribe has been confined chiefly to mynahs, canaries, and birds in poetry None of these wearing airgrettes, so far as I have observed, I have associated such plumes with human adornments solely, and have supposed them | deck. artificial. The dead birds in milliners' windows have always been to me a deplorable sight (as deplorable as the sight of live birds in cages); yet it is Brecket, A. Cropp. true that the production of readymade garments, with a more than possible background of vile tenements, starvation wages, and perhaps sin, has wrought upon my feelings and opinions to the exclusion of the suffering bird producers.

An education in ethics and social economics plus an inherited New England conscience, gives, I assure you, Sibyl, a result uncomfortable to live with, particularly if it is locked up in dock. one's own breast. Recent information concerning the source of aigrettes coupled with with unsparing denunciation of their human wearers has, of course, been too much for my mental composure, and a convinced and sympathetic mind has caused a ruthless dismantling of my hats and bonnets. Their present appearance is far from pleasing, and an aesthetic eye, hence I appeal to you. You know my short stature and se-

verity of countenance—the necessity of a lofty headgear, the need of something to soften the otherwise hard effect of my angular jaw, prominent nose, glasses and hair disinclined to curl. Put me into a stiff hat with ribbon bows, or quills (and why aren't they and ostrich plumes objectionable, too?) with nothing to relieve the severe lines, and you have an abhorred lack of that feminine attractiveness every sensible woman ought to desire and have. Are artificial aigrettes of delicacy and fineness to be had, or can they be made? Investigate, Sibyl, dear; it is right in your line.

I must now don my conscientiously dismantled hat, and attend a meeting of the Village Improvement Society, the subject of the afternoon being 'Women's Dress-What Rules Can Be Made to Enforce Its Becomingness?" Affectionately yours,

ANGELINE. Honolulu, Nov. 19th, 1896.
